

SUPPLEMENTARY FIGURE

Supplementary Figure 1. (A–C) The mRNA expression of BCAT1 in different grades of gliomas according to GSE16011, GSE4290 and REMBRANDT datasets. (D–I) The mRNA expression profiles of BCAT1 in different grades, histological types and molecular subtypes of gliomas according to TCGA and CGGA datasets. (Abbreviations: A: astrocytoma, OA: oligoastrocytoma, OG: oligodendroglioma, GBM: glioblastoma; C: classical, M: mesenchymal, N: neural, P: proneural) (****:P<0.0001, ***:P<0.001, **:P<0.01, *:P<0.05, ns: no significance).
