

Supplementary File 2. The scatter plots for all negative results.

MR Test / CML

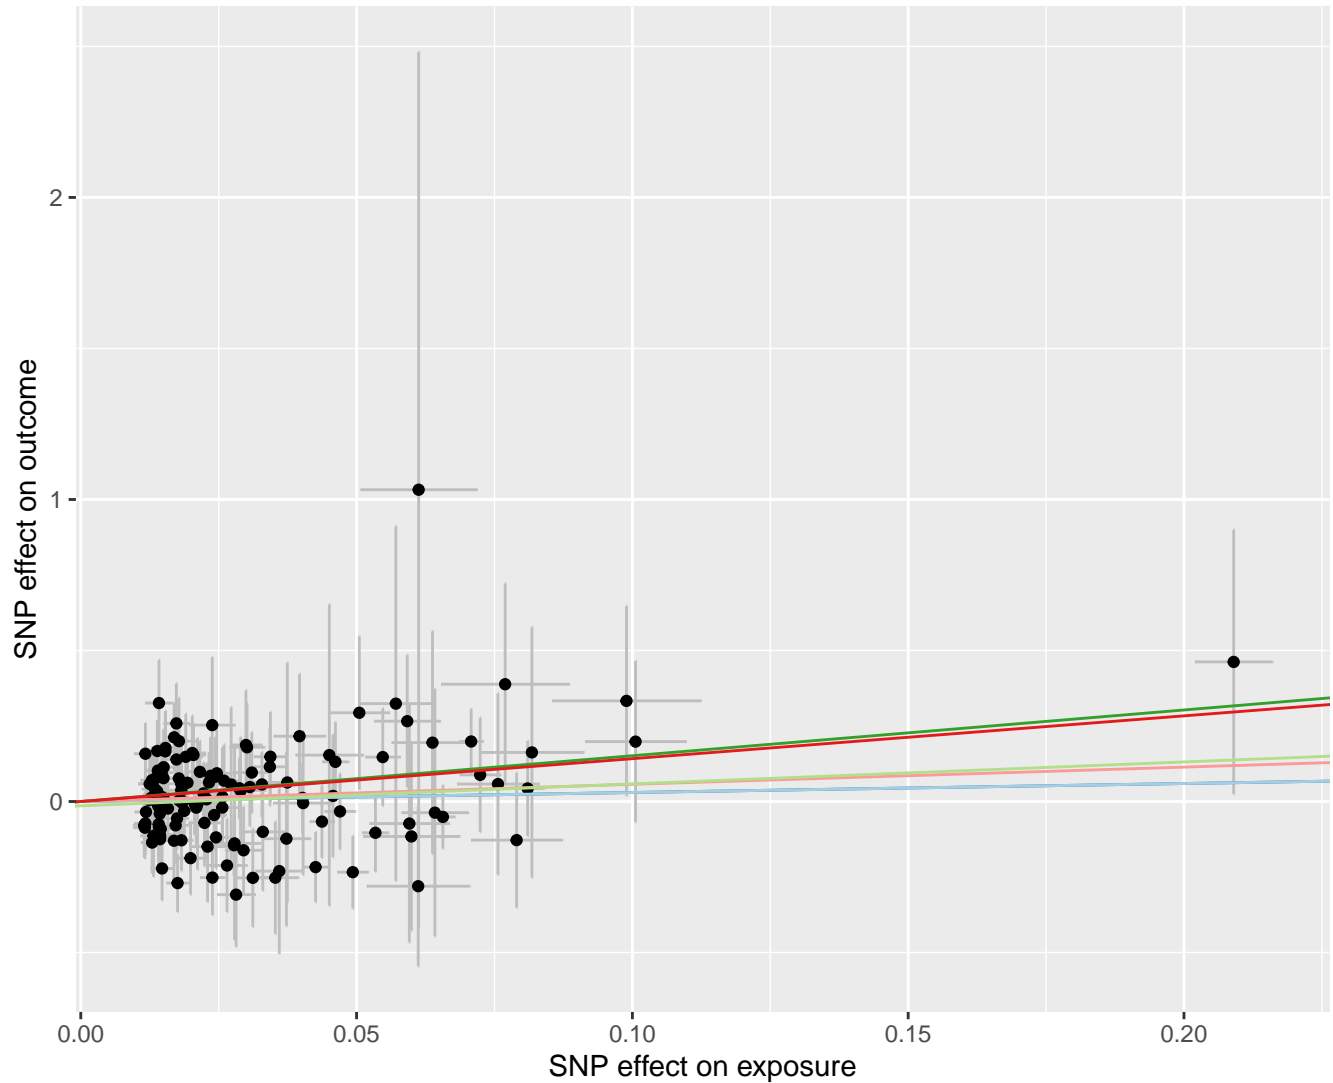

MR Test / DLBCL

MR Test / MARGINAL

- Inverse variance weighted (fixed effects)
- Inverse variance weighted (random effects)
- MR Egger

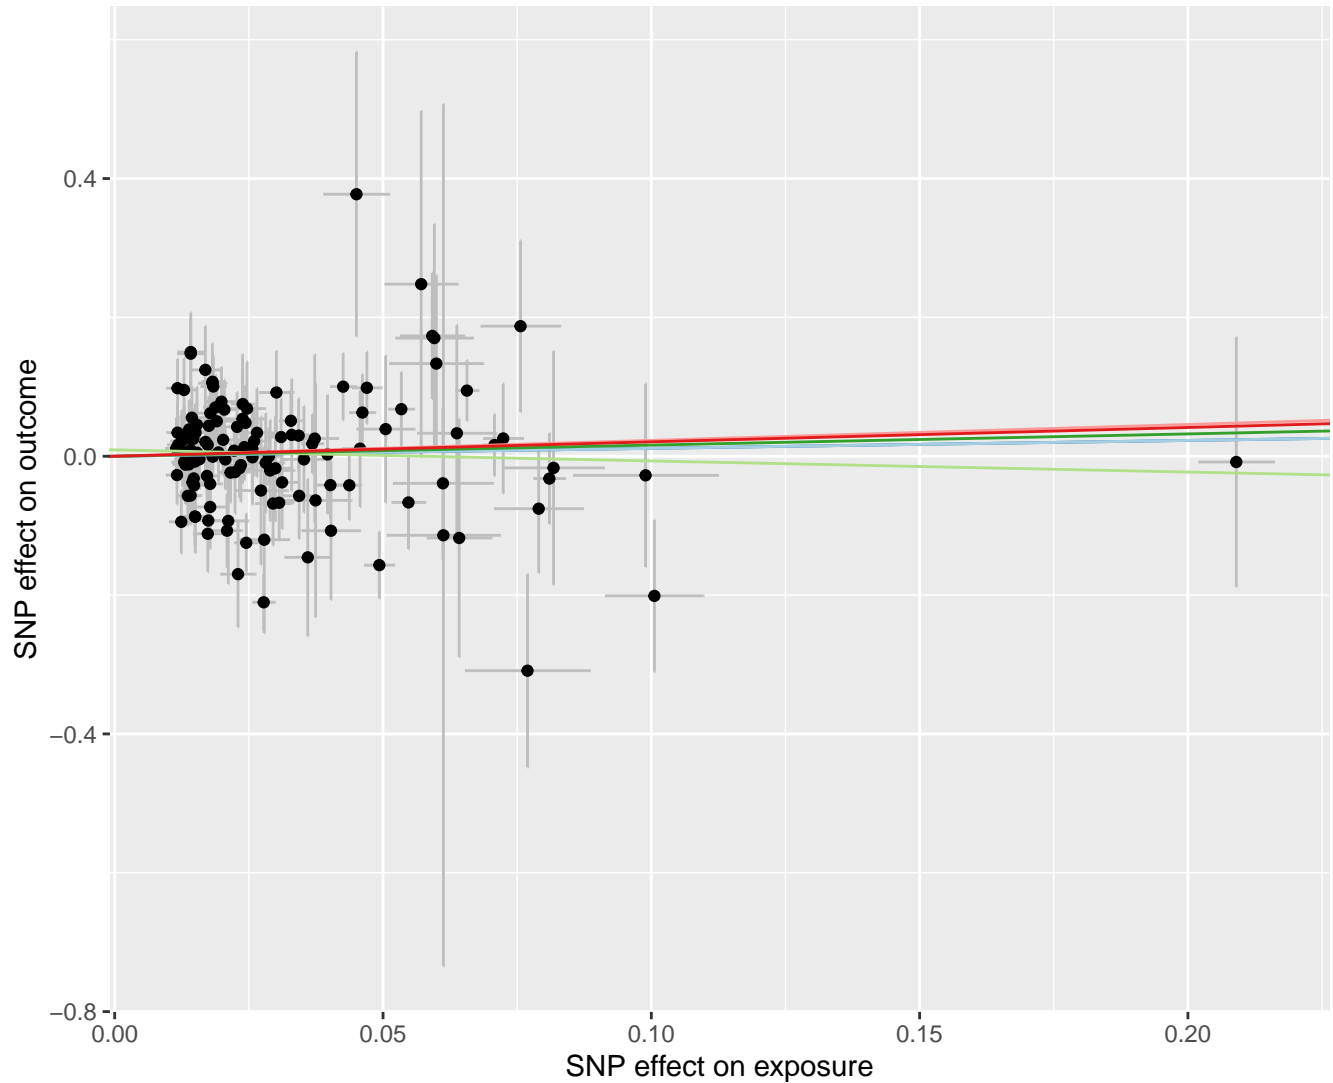

- Simple mode
- Weighted median
- Weighted mode

MR Test / FOLLICULAR

- Inverse variance weighted (fixed effects)
- Inverse variance weighted (random effects)
- MR Egger

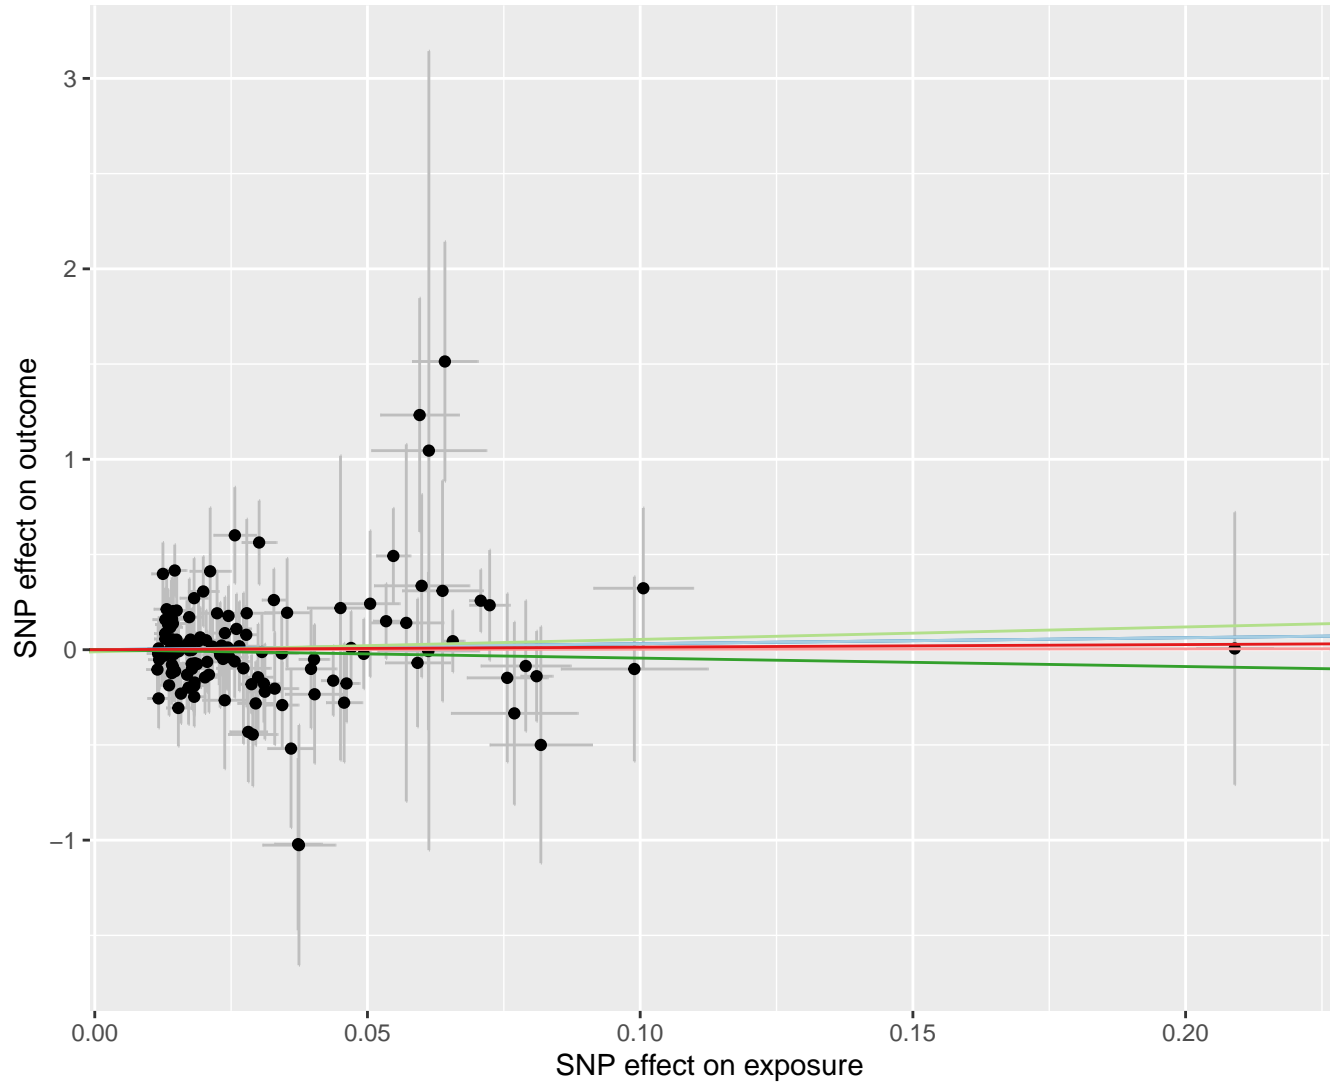

- Simple mode
- Weighted median
- Weighted mode

MR Test / MONOCYTIC

- Inverse variance weighted (fixed effects)
- Inverse variance weighted (random effects)
- MR Egger

- Simple mode
- Weighted median
- Weighted mode

MR Test / TNK

- Inverse variance weighted (fixed effects)
- Inverse variance weighted (random effects)
- MR Egger

- Simple mode
- Weighted median
- Weighted mode
